

# SAFETY DATA SHEET

## OXYBOOST PLUS

APPLIED PRODUCTS AUSTRALIA PTY LTD

Catalogue number: AP446.01

Version No: 2.1

Issue date: 01/04/2024

### SECTION 1 IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY / UNDERTAKING

#### Product Identifier

Product name	OXYBOOST PLUS
Product code	AP446.01
Pack sizes	1kg

#### Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses	Oxygen powered destainer and booster
--------------------------	--------------------------------------

#### Details of the supplier of the safety data sheet

Registered company name	The Restoration Group Ltd	
Address	APPLIED PRODUCTS AUSTRALIA PTY LTD	53 Wakefield Street, Onekawa, Napier 4110
Telephone	11 Gamma Close, Beresfield 2322 NSW Australia	(06) 835 -0065
Website	(02) 4966 5516	www.restorationgroup.co.nz
Email	www.actichem.com.au	info@restorationgroup.co.nz
	info@actichem.com.au	

#### Emergency telephone number

Association / Organisation	Poisons Information Centre
Emergency telephone numbers	1 0800 - 764 -766
Other emergency telephone numbers	Not Available

### SECTION 2 HAZARDS IDENTIFICATION

#### Classification of the substance or mixture

**HAZARDOUS CHEMICAL. NON-DANGEROUS GOODS. NAME OF ASSIGNED GROUP STANDARD AND HSNO APPROVAL NUMBER:**

**Cleaning Products (Oxidising Liquids and Solids) Group Standard 2020 HSR002590**

Poisons Schedule 6

GHS Classification Acute Toxicity (Oral) Category 4, Skin Corrosion/Irritation Category 2, Serious Eye Damage Category 1, Oxidizing Solid Category 2, STOT (Single Exposure) Category 3

#### Label elements

Classification drawn from HCIS and ECHA C&L Inventory.

Hazard Pictograms

SIGNAL WORD

**DANGER**

#### Hazard statement(s)

H272	May intensify fire; oxidizer
H302	Harmful if swallowed
H315	Causes skin irritation
H318	Causes serious eye damage
H335	May cause respiratory irritation.
AUH066	Repeated exposure may cause skin dryness and cracking

Product Code: AP446.01  
Version No: 2.1

## Precautionary statement(s) Prevention

P210	Keep away from heat / sparks / open flames / hot surfaces. - No smoking.
P221	Take any precaution to avoid mixing with combustibles / organic material.
P280	Wear eye protection.
P220	Keep / Store away from clothing / organic material / combustible materials.
P270	Do not eat, drink or smoke when using this product.
P261	Avoid breathing dust
P271	Use only outdoors or in a well-ventilated area.
P264	Wash exposed skin thoroughly after handling.

## Precautionary statement(s) Response

P305+P310+P351+P338	IF IN EYES: Immediately call a POISON CENTER or doctor. Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P302+P352+P362+P332+P313	IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical advice / attention.
P301+P330+P312	IF SWALLOWED: Rinse mouth. Call a POISON CENTER or doctor if you feel unwell.
P304+P340+P312	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTRE or doctor if you feel unwell.
P370+P378	In case of fire: Use water spray/fog for extinction.

## Precautionary statement(s) Storage

P405+P403+P233	Store locked up in a well-ventilated place. Keep container tightly closed.
----------------	--

## Precautionary statement(s) Disposal

P501	Dispose of contents / container in accordance with local regulations
------	--

## SECTION 3 COMPOSITION / INFORMATION ON INGREDIENTS

## Substances

See section below for composition of Mixtures

## Mixtures

CAS No	%[weight]	Name
15630-89-4	>60	sodium percarbonate

## SECTION 4 FIRST AID MEASURES

## Description of first aid measures

Eye Contact	<p>If this product comes in contact with the eyes: Obtain medical advice / attention without delay. Immediately hold eyelids apart and flush the eye continuously with running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. If required, transport to hospital or doctor without delay. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.</p>
Skin Contact	<p>If skin contact occurs: Immediately remove all contaminated clothing, including footwear. Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation.</p>
Inhalation	<p>If fumes, aerosols or combustion products are inhaled remove from contaminated area. Other measures are usually unnecessary. <b>IF SWALLOWED, REFER FOR MEDICAL ATTENTION, WHERE POSSIBLE, WITHOUT DELAY.</b></p>
Ingestion	<p>For advice, contact a Poisons Information Centre or a doctor. Urgent hospital treatment is likely to be needed. In the meantime, qualified first-aid personnel should treat the patient following observation and employing supportive measures as indicated by the patient's condition. If the services of a medical officer or medical doctor are readily available, the patient should be placed in his/her care and a copy of the SDS should be provided. Further action will be the responsibility of the medical specialist. If medical attention is not available on the worksite or surroundings send the patient to a hospital together with a copy of the SDS.</p>

## Indication of any immediate medical attention and special treatment needed

Treat symptomatically

Hydrogen peroxide at moderate concentrations (5% or more) is a strong oxidant.

Direct contact with the eye is likely to cause corneal damage especially if not washed immediately. Careful ophthalmologic evaluation is recommended and the possibility of local corticosteroid therapy should be considered.

## SECTION 5 FIREFIGHTING MEASURES

### Extinguishing media

Extinguishing media	<p>NOTE: Chemical extinguishing agents may accelerate decomposition. [CCINFO] FOR SMALL FIRE: Use flooding quantities of water. <b>DO NOT use dry chemical, CO2, foam or halogenated-type extinguishers.</b> FOR LARGE FIRE Flood fire area with water from a protected position</p>
---------------------	--

### Special hazards arising from the substrate or mixture

Fire incompatibilities	<p>Avoid storage with reducing agents. Avoid any contamination of this material as it is very reactive and any contamination is potentially hazardous</p>
------------------------	---

### Advice for firefighters

Fire Fighting	<p>Alert Fire Brigade and tell them location and nature of hazard. May be violently or explosively reactive. Wear full body protective clothing with breathing apparatus. Prevent, by any means available, spillage from entering drains or water courses. Fight fire from a safe distance, with adequate cover. Extinguishers should be used only by trained personnel. Use water delivered as a fine spray to control fire and cool adjacent area. DO NOT approach containers suspected to be hot. Cool fire exposed containers with water spray from a protected location. If safe to do so, remove containers from path of fire.</p>
Fire/Explosion Hazard	<p>Will not burn but increases intensity of fire. Heating may cause expansion or decomposition leading to violent rupture of containers. Heat affected containers remain hazardous. Contact with combustibles such as wood, paper, oil or finely divided metal may produce spontaneous combustion or violent decomposition. May emit irritating, poisonous or corrosive fumes.</p>
HAZCHEM	1Y

## SECTION 6 ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

Minor Spills	<p>Clean up all spills immediately. No smoking, naked lights, ignition sources. Avoid all contact with any organic matter including fuel, solvents, sawdust, paper or cloth and other incompatible materials, as ignition may result. Avoid breathing dust and all contact with skin and eyes. Control personal contact with the substance, by using protective equipment. Scoop up solid residues and seal in labelled drums for disposal. Flush away with copious amounts of water.</p>
Major Spills	<p>Alert Fire Brigade and tell them location and nature of hazard. May be violently or explosively reactive. Wear full body protective clothing with breathing apparatus. Consider evacuation (or protect in place). No smoking, flames or ignition sources. Increase ventilation.</p>
PPE	Personal Protective Equipment advice is contained in Section 8 of the SDS

## SECTION 7 HANDLING AND STORAGE

### Precautions for safe handling

Safe handling	<p>Provide adequate ventilation. Avoid personal contact and inhalation of dust. Always wear protective equipment and wash off any spillage from clothing. Keep material away from light, heat, flammables or combustibles. Keep cool, dry and away from incompatible materials. Avoid physical damage to containers. DO NOT repack or return unused portions to original containers. Withdraw only sufficient amounts for immediate use. Use only minimum quantity required. Avoid using solutions of peroxides in volatile solvents.</p>
Other information	<p>Store in original containers. Keep containers securely sealed as supplied. Store in a cool, well ventilated area. Keep dry. Store under cover and away from sunlight. Store away from flammable or combustible materials, debris and waste. Contact may cause fire or violent reaction. Store away from incompatible materials and foodstuff containers.</p>

Product Code: **AP446.01**  
 Version No: **2.1**

Conditions for safe storage, including any incompatibilities.

Suitable container	<b>DO NOT repack.</b> Use containers supplied by manufacturer only.
Storage incompatibility	This product contains hydrogen peroxide which is a powerful oxidiser Avoid contamination with reducing agents, acids, alkalis, organic solvents, metallic salts. Avoid combustible materials and liquids. Keep away from combustible materials such as cloths, wood and sawdust. Keep out of sunlight.

**SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION**

Control parameters

OCCUPATIONAL EXPOSURE LIMITS (OEL)

INGREDIENT DATA

No data available
-------------------

EMERGENCY LIMITS

Ingredient	Material name	TEEL-1	TEEL-2	TEEL-3
sodium percarbonate	sodium percarbonate	Not Available	Not Available	Not Available

Ingredient	Original IDLH	Revised IDLH
sodium percarbonate	Not Available	Not Available

Exposure controls

Appropriate engineering controls	Maintain adequate ventilation at all times. In most circumstances natural ventilation systems are adequate. If ventilation is poor, then the use of a local exhaust ventilation system is recommended.
Personal protection	
Eye and face protection	Chemical goggles. Full face shield may be required for supplementary but never for primary protection of eyes. Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. Lens should be removed at the first signs of eye redness or irritation. Lens should be removed in a clean environment only after workers have washed hands thoroughly.
Skin protection	See Hand protection below
Hands/feet protection	Wear chemical protective gloves, e.g. Neoprene Hand cream offers no protection for hydrogen peroxide and should not be used.
Body protection	See Other protection below
Other protection	Overalls. PVC Apron. Eyewash unit. Ensure there is ready access to a safety shower.
Thermal hazards	Not Available

**SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES**

Information on basic physical and chemical properties

Appearance	White free flowing powder		
Physical state	Powder	Relative density (Water = 1)	Not Available
Odour	Not Available	Viscosity (cSt)	Not Available
Odour threshold	Not Available	Auto-ignition temperature (°C)	Not Applicable
pH (as supplied)	10.0	Decomposition temperature	Not Available
Melting point / freezing point (°C)	Not Available	Partition coefficient n-octanol / water	Not Available
Initial boiling point and boiling range (°C)	Not Available	Molecular weight (g/mol)	Not Available
Flash point (°C)	Not Applicable	Taste	Not Available
Evaporation rate	Not Available	Explosive properties	Not Available
Flammability	Not Applicable	Oxidising properties	Not Available
Upper Explosive Limit (%)	Not Applicable	Surface Tension (dyn/cm or mN/m)	Not Available
Lower Explosive Limit (%)	Not Applicable	Volatile Component (%vol)	Not Available
Vapour pressure (kPa)	Not Applicable	Gas group	Not Available
Solubility in water (g/L)	Not Available	pH as a solution (1%)	Not Available
Vapour density (Air = 1)	Miscible	VOC g/L	Not Available
	Not Available		Not Available

**SECTION 10 STABILITY AND REACTIVITY**

Reactivity	See section 7
Chemical stability	Unstable in the presence of incompatible materials. Product is considered stable under normal handling conditions. Hazardous polymerisation will not occur. Unstable if submitted to prolonged exposure to heat
Possibility of hazardous reactions	See section 7
Conditions to avoid	See section 7
Incompatible materials	See section 7
Hazardous decomposition products	See section 5

**SECTION 11 TOXICOLOGICAL INFORMATION**

Information on toxicological effects

Inhaled	There is some evidence to suggest that the material can cause respiratory irritation in some persons. The body's response to such irritation can cause further lung damage. Inhalation of dusts, generated by the material during the course of normal handling, may be damaging to the health of the individual. Persons with impaired respiratory function, airway diseases and conditions such as emphysema or chronic bronchitis, may incur further disability if excessive concentrations of particulate are inhaled. If prior damage to the circulatory or nervous systems has occurred or if kidney damage has been sustained, proper screenings should be conducted on individuals who may be exposed to further risk if handling and use of the material result in excessive exposures.
Ingestion	Accidental ingestion of the material may be harmful. There is some evidence to suggest that this material can cause inflammation of the skin on contact in some persons.
Skin Contact	Entry into the blood-stream, through, for example, cuts, abrasions or lesions, may produce systemic injury with harmful effects. Examine the skin prior to the use of the material and ensure that any external damage is suitably protected. If applied to the eyes, this material causes severe eye damage.
Eye	Prolonged or repeated skin contact may cause drying with cracking, irritation and possible dermatitis following.
Chronic	

Toxicological effects of ingredients

sodium percarbonate	Acute toxicity	Oral LD50 (rat) 1034 – 2000 mg/kg Dermal LD50 (rabbit) >2000 mg/kg
	Skin corrosion/irritation	Mild irritant (Rabbit).
	Eye damage/irritation	Causes serious eye damage
	Respiratory/skin sensitization	Not a skin sensitizer
	Germ cell mutagenicity	No adverse effect observed in tests conducted
	Carcinogenicity	Not a carcinogen
	Reproductive toxicity	Unlikely to be toxic to reproduction
	STOT (single exposure)	No Data Available
	STOT (repeated exposure)	No Data Available
	Aspiration toxicity	No Data Available

**SECTION 12 ECOLOGICAL INFORMATION**

Toxicity

	Endpoint	Duration (Hr.)	Species	Value
sodium percarbonate	EC50	48	Crustacea	=4.9mg/L
	NOEC	48	Crustacea	=2mg/L

DO NOT discharge into sewer or waterways .

Persistence and degradability

Ingredient	Persistence: Water/Soil	Persistence: Air
No data available		

Bio accumulative potential

Ingredient	Bioaccumulation
No data available	

Mobility in soil

Ingredient	Mobility
No data available	

**SECTION 13 DISPOSAL CONSIDERATIONS**

Waste treatment methods

Product / packaging disposal	Recycle containers whenever possible. Product residues and containers should be disposed of in accordance with local government regulations
------------------------------	--

**SECTION 14 TRANSPORT INFORMATION**

Labels Required

Marine Pollutant	NO
HAZCHEM	1Y

Land transport (ADG) – NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS IN PACK SIZES OF 1KG OR LESS

**SECTION 15 REGULATORY INFORMATION**

Safety, health and environmental regulations / legislation specific for the substance or mixture

SODIUM PERCARBONATE IS FOUND ON THE FOLLOWING REGULATORY LISTS

- Australia Hazardous Chemical Information System (HCIS) - Hazardous Chemicals
- Australia Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP) - Schedule 5
- Australia Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP) - Schedule 6
- Australian Inventory of Industrial Chemicals (AIIC)

**SECTION 16 OTHER INFORMATION**

Revision Schedule

Revision Date	08/03/202
Initial Date	1

SDS Version Summary 08/12/201

Version	Issue Date	Sections Updated
2.1	08/03/2021	Sections 2, 11, 12, 15, 16 have been updated or corrected

Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources such as the ECHA C&L Chemical Inventory, HSNO (CCID) New Zealand, AICIS and HCIS Australia

DISCLAIMER: While the information in this Safety Data Sheet (SDS) is believed to be true and accurate based on the current level of knowledge available to us, the author makes no representations as to its accuracy or sufficiency. Conditions of use are beyond the control of APPLIED PRODUCTS AUSTRALIA PTY LTD and therefore the users are responsible to verify this data under their own particular conditions of use, applications and regulations to determine whether the product is suitable for their particular purpose and they assume all risks of their use, handling, disposal, reliance upon, publication or use of the information contained herein. This information applies only to the product designated above and does not necessarily apply to its use in combination with other materials, products, chemical compounds, structures, or processes.

**Definitions and abbreviations**

PC-TWA:	Permissible Concentration-Time Weighted Average
PC-STEL:	Permissible Concentration-Short Term Exposure Limit
IARC:	International Agency for Research on Cancer
ACGIH:	American Conference of Government Industrial Hygienists
STEL:	Short Term Exposure Limit
TEEL:	Temporary Emergency Exposure Limit
IDLH:	Immediate Danger to Life or Health Concentrations
OSF:	Odour Safety Factor
NOAEL:	No Observed Effects Level
TLV:	Threshold Limit Value
LOD:	Limit Of Detection
OTV:	Odour Threshold Value
